

IN THE ABSTRACT

Please amend the Abstract under MPEP § 608.01(b) at the paragraph beginning on page 22, line 5, as set forth below:

A swing-arm clamp ~~may~~ is provided. The swing-arm clamp has a locating member that is movable in concert with a rod which is disposed in the clamp. The locating member engages a guide when the arm is located in a first position and separates from the guide when in a second position.
